What We Do .

Monitor Look-Alike Websites
Identify where scammers are using look-alike websites amplify fraud against your brand.

Search For Logos Across The Web
Find where your brand logo is being used and in what manner across the web.

Run Website Security Reviews
Run sites and domains through our proprietary security systems that automatically flag dangerous sites and alert you immediately.

Catch Fake Listings On Marketplaces
Counterfeit sales harm your brand integrity, your revenue, and your customer's money. We can find fakes on Amazon, Alibaba and Ebay and take them down, fast.

Proprietary Algorithms
We have been refining our algorithms for over 5 years to help eliminate noise and focus on the bad dots.

Trademark and IP Infringement Alerts
Monitor your licensees, affiliates or vendors and ensure they are staying compliant.

Find Phishing Scams
Make sure scammers aren't using your website or brand name to phish customers.

Use Cases:

|				
A web marketplace got spoofed, the scammers collected money but delivered nothing.	A lawyer files a trademark application, then needs to help their client protect the mark online.	An online service provider was spoofed, the scammer collected money but delivered nothing.	A web developer builds a website, but needs to help their clients to avoid the new site from getting spoofed.	A scammer spoofs a non-profit or politician site, and collects donations fraudulently.

The Biggest Brands are Already Using Web3 Domains.

What is your plan?

Adidas Web3 loyalty program tailored to the preferences of their customers, with unique benefits to promote brand loyalty.

Web3 and blockchain technology is being used to prevent counterfeit products at Louis Vuitton, Cartier, and Prada.

Starbucks is using Web3 to build unique experiences, community building and customer engagement with upcoming Starbucks Digital Community Web3 platform.

WARNING

If you don't purchase your Web3.0 domain. someone else probablv will. That's because a Web3 domain name can be purchased anonymously, and there are no rules. laws or governing bodies that can negotiate or arbitrate with the owner. That's why it is important to identifv and acquire your key domains as soon as possible.

Immediate Hold* → **Buy Web3 Domain** → **Annual Maintenance**

WARNING

Previously Purchased Domains May Be unrecoverable
